JONELLE GEBOLINGO

Information Technology Student • Web Development • IT Support & Troubleshooting

Email: jonellegebolingo15@gmail.com | **Location:** Philippines | **GitHub:** github.com/DarbsNellejo15 | **Portfolio:** darbs-portfolio

PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology student at Torres Capitol College with practical expertise in web development, computer hardware/software troubleshooting, and programming. Experienced in designing responsive user interfaces, building AI-driven diagnostic solutions (DARBS AI), and delivering reliable IT support. Highly adaptable, analytical, and passionate about solving complex technical problems while contributing positively to organizational goals.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

2023 – Present (3rd Year)

Torres Capitol College • Philippines — Undergraduate Studies

- Focused coursework: Web Development, Computer Hardware Troubleshooting, Database Systems, Network Fundamentals, Object-Oriented Programming, and IT Ethics.

TECHNICAL SKILLS & ABILITIES

Web & Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Responsive UI/UX Design, CSS Grid & Flexbox
Programming & Data:	Python, SQL, Database Management, Scripting, Algorithm Design, API Integration
IT Support & Hardware:	Hardware & Software Troubleshooting, System Diagnostics, PC Assembly/Maintenance, OS Optimization
Tools & Platforms:	Git, GitHub, Firebase, VS Code, Vite, Microsoft Office (Word, Excel), Video Editing Software
Core Strengths:	Technical Problem Solving, Analytical Thinking, Time Management, Patience, Team Collaboration

PROJECTS & APPLIED EXPERIENCE

DARBS AI – Diagnostic Assistant for Repair, Bugs, and Support

Python • Firebase • AI Diagnostics

- Architected an AI-driven troubleshooting assistant engineered to guide users in detecting, diagnosing, and resolving common PC hardware/software performance bottlenecks.
- Integrated cloud-backed knowledge bases with Firebase to deliver instantaneous diagnostic suggestions and step-by-step remediation procedures.

PC Diagnostic Utility & System Health Scanner

Python • Automation • Diagnostics

- Developed an automated system diagnostic tool for rapid hardware health evaluation, CPU/memory usage telemetry, and storage integrity assessment.
- Reduced troubleshooting inspection time through automated metric reporting and intuitive error code summaries.

DARBS Digital Portfolio & Interactive Web Applications

HTML5 • CSS3 • JavaScript • Git

- Designed modern responsive web interfaces featuring glassmorphic design systems, dynamic JSON data loading, and cross-browser compatibility.

CERTIFICATIONS & TRAINING

- **Cisco Networking Academy** – Verified Networking and IT Fundamentals Certification — Cisco NetAcad
- **DEVCON Sui Move Code Camp 2026** – Blockchain & Smart Contract Development Level 1 — DEVCON
- **BSIT Technical Seminar & Skills Workshop 2026** – IT Infrastructure & Applications — Torres Capitol College
